Summary

Motivated Computer Science student with hands-on knowledge of HTML, CSS, JavaScript, React, Java, SQL, and Spring Boot. Skilled in building responsive web applications and backend services with a strong foundation in object-oriented programming and database management. Eager to learn, grow, and contribute with my skills in organization.

Skills

Programming Languages: Java, JavaScript, SQL

Frontend Technologies: HTML, CSS, ReactJs

Backend/Database: Springboot, MySQL, MongoDB

Core Concepts: Object-Oriented Programming (OOP), Data Structures

Tools & Others: GitHub, VS Code, Eclipse

Projects

AI Based Library Management System | *Spring Boot, React, MySQL, AI Integration, Razorpay*

- **Architected a full-stack AI-Powered Smart Library Assistant** using Spring Boot and React to automate book borrowing, tracking, and fine management workflows.
- **Developed an NLP-based Chatbot** that resolves natural language queries (English/Hindi) for real-time borrowing status, book summaries, and personalized recommendations.
- **Integrated Razorpay API** for secure, automated fine payments and implemented a background fine-calculation engine to streamline financial operations.
- **Engineered a Smart Recommendation Engine** that analyzes user borrowing history and book metadata to suggest relevant titles, significantly improving book discoverability.
- **Designed a responsive UI** with Framer Motion and Lucide icons, featuring interactive dashboards for real-time tracking of book availability and overdue alerts.

Weather Application | *JavaScript, HTML, CSS, Weather API*

- **Developed a responsive Weather Application** using HTML, CSS, and JavaScript to display real-time weather details for different cities through public weather APIs.
- **Integrated REST API services** to fetch live temperature, humidity, wind speed, and weather conditions with dynamic data rendering.
- **Designed an interactive and user-friendly interface** with clean layouts, responsive styling, and organized frontend code structure.
- **Optimized application performance** by using asynchronous JavaScript (Fetch API/Promises) for smooth and efficient API communication.

Achievements & Certifications

- **Software Engineering Job Simulation – Forage(2025):** Completed Tasks and gain practical knowledge.
- **IBM Sill Build:** Artificial Intelligence Fundamentals
- **CodeTantra Certified – 2026, Parul University:** Certification in Design and Analysis of Algorithms via the CodeTantra platform.

Education

Bachelor of Technology(CSE)

Parul University, Vadodara, Gujarat

2023 - 2027

CGPA: 7.75 / 10

Class - XII (BSEB)

Percentage: 62.4%

2023

Class - X (BSEB)

Percentage: 71.2%

2021
